

INTRODUCTION TO MACROECONOMICS (CLASS 1)

4. Evaluation of the professor SHUBHDEEP DEB

In this section you can see the evaluations made on the questions referred to the teacher. The assessment is made on a scale from 0 to 10, where 0 is "strongly disagree" and 10 "strongly agree".

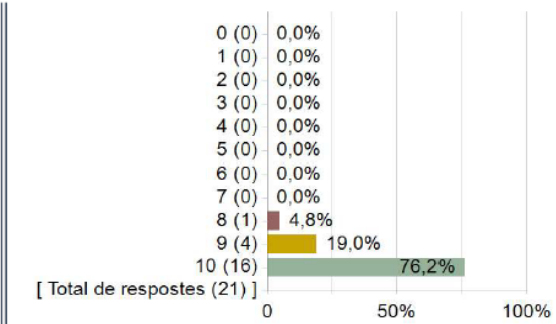

The axis of the graph shows the score and, in parentheses, the number of responses for that value.

5. The teacher has adequately fulfilled his or her teaching obligations (teaching plan, punctuality, attention to the student, etc.)

Statistics	results
Average of the subject-group	9.9
standard deviation	0.3

6. I am satisfied with the teaching received

Statistics	results
Average of the subject-group	9.7
standard deviation	0.6

5. Comments regarding the professor SHUBHDEEP DEB

This section shows the comments that students have made in relation to the teacher.

comments
Entertaining and super dynamic classes with clean explanation, super nice and eager to teach and improve himself. Excellent work my congratulations
The seminar teacher creates a pleasant atmosphere in class and cares about helping the students
He always wants the best for us and looks for ways to motivate students to learn. It makes you not afraid to participate and make the class fun and leave with a high level of learning
He is attentive to students and tries to make you understand.
He cares that all the world is class even though many people don't participate, and that could be depressing for muchos, and personally he looks like a very genuine guy.
The best teacher I've had in my entire career. I had suspended the subject last year, and this year I was able to really enjoy it and learn thanks to Shubhdeep, he is a very good teacher.

7. Compare teacher ratings with average ratings by Study and Department

In this section you can see the ratings obtained by the professor compared to the average ratings for the Study and the Department.

question	Teacher		Study (3324- Degree in Business Administration and Management)		Department (403 - Department of Economy and Business)	
	Average of the subject-group	standard deviation	Average of the subject-group	standard deviation	Average of the subject-group	standard deviation
5. The teacher has adequately fulfilled his or her teaching obligations (teaching plan, punctuality, attention to the student, etc.)	9.9	0.3	8.4	2.1	8.2	2.2
6. I am satisfied with the teaching received	9.7	0.6	7.9	2.5	7.7	2.6
